we've got the
training solution
you're looking for

Off-site Training

In addition to the regular software training classes offered at TECHEAD, we also provide off-site training for one to 100 people at your office. Rather than organizing a day of travel to a training facility for your employees, TECHEAD will come to you. We'll provide the certified instructor, equipment, and training software, and all you have to do is provide the location. TECHEAD offers classes in Macromedia MX products such as Dreamweaver MX, ColdFusion MX, Flash MX, and Fireworks MX. Our Adobe suite classes include all levels of Photoshop, Illustrator, and InDesign. Other available classes include QuarkXPress, HTML, CSS, PHP, and more.

Give your employees (and your business) the edge they need to succeed by equipping them with the knowledge and skills they'll receive from our highly qualified instructors. Making sure your employees are updated on the latest software versions and most cutting-edge programs will result in a more efficient performance and better-quality work. The individualized attention they'll receive is common to all of the classes offered by TECHEAD, and the added ease of custom training at your location will make the learning experience enjoyable and beneficial for all.

About TECHEAD

TECHEAD provides creative talent and information technology staffing services, multimedia and graphics software training, and creative business solutions with a focus on LINUX and ColdFusion. We are qualified as a Small, Woman-owned business and are headquartered in Richmond, Virginia. We've built our reputation on building strong client relationships for 15 years.

TECHEAD has been a Richmond "Rising 25" honoree four times in a row. We were also named as a "Fantastic Fifty" Company in the State of Virginia for 2000 and 2001. Also in 2001, we made the "Purple Squirrel 100," an exclusive ranking of 100 of the fastest-growing IT staffing/services firms in the United States. And in 2002, we were honored to be included on Inc. Magazine's "Inner City 100" list, recognizing America's fastest-growing urban businesses, and we also received a Better Business Bureau Torch Award for outstanding business ethics.
